**ACTUARIAL CONSULTANTS, INC. PASSES RENEWAL OF ASPPA'S STRINGENT
CERTIFICATION FOR RETIREMENT PLAN RECORDKEEPERS**

TORRANCE, CA – July 8, 2010 – Actuarial Consultants, Inc. (ACI) has renewed its Recordkeeper Certification offered by the American Society of Pension Professionals and Actuaries (“ASPPA”). This is the only certification that strives to attest to the highest level of recordkeeping excellence. ACI continues to be the first and only firm in California to successfully complete the independent certification process for recordkeepers.

When ACI first received its certification last year, Pat Byrnes, Founder and President of ACI, said “We believe that this certification is a testament to our pursuit of living our mission and values; our drive to continuously improve what we are doing and how we are doing it. The preservation and enhancement of the private pension system requires this kind of forward thinking and acting.”

Pat Byrnes is available for interviews or to contribute articles on Fiduciary responsibilities or other retirement related topics.

About Actuarial Consultants, Inc.

Founded by Pat Byrnes in 1983, ACI is a consulting firm dedicated to providing solutions to the right problems in the time and cost expected by its clients. They provide consulting, actuarial, compliance and recordkeeping services to retirement plan and compensation clients. ACI has grown to become one of the country's most highly regarded compensation and benefits organizations.
